FULL-AUTO RATED

FULLY WELDED

MODULAR ATTACHMENT

MULTICALIBER

**Dimensions are with direct thread adapter installed*
**Mantle QD optional and will not be available at launch.*
Relase date TBD.

AERO PRECISION

LAHAR-30

The Lahar-30® Suppressor was designed and built to be a workhorse – providing durability, performance, and flexibility in a single package.

The Lahar-30 is full-auto and magnum rated (5.56x45 NATO up to 300 WIN) with no barrel length restrictions. It features a fully laser welded, hybrid construction made up of 17-4 stainless steel with an Inconel blast baffle. A wire EDM bore ensures perfect concentricity and consistency. Industry-standard 1-3/8x24 TPI threads allow for the use of direct thread adapters, the Aero Precision Mantle® Quick Detach system, and other common QD adapters utilizing this thread pitch.

Each Lahar-30 suppressor is backed by Aero Precision's lifetime manufacturers warranty.
